

### Abstract

This interactive presentation will immerse us in a divisive multi-party roleplay exercise. During the debrief, facilitators will draw on our experience (in both our actual and simulation roles) to highlight ideas for addressing campus division.

This conversation will cover strategies discussed in “*Sharing Dispute Resolution Practices with Leaders of a Divided Community or Campus*” (winner of the International Institute for Conflict Prevention & Resolution’s 2021 Outstanding Professional Article Award) and highlight new concepts which focus on race equity and today’s political climate.
